Brief Overview

The Chartered Manager (C.Mgr.) designation brings together rigorous business education with professional-level experience, setting you apart to contribute to Canada’s economic success. The Chartered Management Program (CMP) provides the foundation to earn your designation and offers the flexibility to complete the process while developing your management skills.

Chartered Manager is the internationally recognized designation in management and leadership. A Chartered Manager has developed various competencies in leadership, strategy, finance, accounting, management operations and organizational analysis. Chartered Managers are part of an international network of management professionals who deliver value to organizations at the highest level.
Steps to Earn Your C.Mgr.

If you hold a recognized undergraduate degree in Management, Commerce, or Business Administration, you will need to obtain 48 months of professional-level management experience, complete the Management Aptitude Evaluation (MAE), agree to be bound by the Code of Ethics and Professional Conduct, and maintain Continuing Professional Development (CPD).

If your undergraduate degree is not in Management, Commerce or Business Administration you will need to complete the 8-course Chartered Management Program (CMP) through Chartered Managers Canada or an approved college or university; in addition to the standard requirements above.
